Work Experience

Full-Stack Developer | Flovi Oy
Jan 2024 – Jan 2026 *(Helsinki, Finland)*

- Rebuilt and unified legacy applications into a **modern, scalable, user-friendly platform** using **Nuxt.js/Vue.js, TypeScript, Tailwind CSS, and Laravel**.
- Built multiple **new frontend applications** from scratch using **Angular**.
- Refactored frontend form schedules logic into a single compact backend schedule endpoint using class-based models in **Laravel**, simplifying data handling and improving maintainability.
- Collaborated with **logistics, designers, product managers, and development teams** to deliver high-quality solutions.

Frontend Developer | Riots Global
Aug 2023 – Jan 2024 *(Oulu, Finland)*

- Played a key role in rebuilding a **NativeScript mobile app** into a mobile-first **Vue.js PWA** using **Quasar.js** and TailwindCSS.
- Delivered UI/UX improvements and new features to enhance usability and performance.
- Implemented **interactive charts** using **Chart.js** and collaborated with a senior backend developer for seamless integration.

Training Program | Buutti Education
May 2023 – Aug 2023 *(Oulu, Finland)*

- Gained hands-on experience with Agile, Scrum, CI/CD pipelines**, Azure, React, TypeScript, Node.js, PostgreSQL**.
- Designed **RESTful APIs** and completed multiple team projects using **GitLab and CI/CD workflows**.
